Program Description:

The National Health Service Corps (NHSC)/State Loan Repayment Program (SLRP) is designed to assist in the placement of primary care health professionals in Health Professional Shortage Areas (HPSAs) of California. The only disciplines eligible to participate in the Program are the following: Physicians (MD or DO) specializing in family practice, general internal medicine, general pediatrics, obstetrics/gynecology and general psychiatry; physician assistants; nurse practitioners; psychiatric nurse specialists; certified nurse-midwives; general practice dentists (DDS or DMD); dental hygienists; clinical or counseling psychologists; clinical social workers; licensed professional counselors; and marriage and family therapists.

The Office of Statewide Health Planning and Development (Office) administers SLRP under a grant from the Federal Government. Under SLRP, the Office is authorized to repay outstanding government and commercial loans only, for expenses incurred during undergraduate or graduate education (i.e., principal, interest, and related expenses for tuition, educational expenses, and reasonable living costs). Award recipients are responsible for paying any interest that accrues on their loan(s) during the application process and subsequent service obligation period.

Health professionals participating in SLRP must practice in public or private not-for-profit settings approved by the Office, therefore, cannot establish private practices.
